

Plow Truck Cleaning

{ A Training PowerPoint

- ⌘ Upon returning to the garage, knock all snow and ice off vehicle before bringing vehicle inside.
- ⌘ Enter the salt shed, use compressed air to remove dried salt, sand, and other particles from truck body and plow.
- ⌘ Next, move vehicle in to the second bay; clean up any oil spills on the floor.
- ⌘ Lastly, use FoamMaster to completely wash the truck.

Things to Remember
